ID2

Significantly upregulated gene mRNA expression in the RR cell lines compared to sensitivity to 5-Fluorouracil chemotherapy in the cancer cell lines available in the CCLE database. Gene expression on the y-axis and IC50 5-FU on the x-axis. Large purple circles represent pancreatic cancer cell lines. Graphs generated no <https://www.cbioportal.org/>

Supplementary Figure 2

Significantly downregulated gene mRNA expression in the RR cell lines compared to sensitivity to 5-Fluorouracil chemotherapy in the cancer cell lines available in the CCLE database. Gene expression on the y-axis and IC50 5-FU on the x-axis. Large purple circles represent pancreatic cancer cell lines. Graphs generated no <https://www.cbioportal.org/>
