

Prof. Sen Xin,

CAS Key Laboratory of Molecular Nanostructure and Nanotechnology, Institute of Chemistry
Chinese Academy of Sciences (CAS), Beijing, China;
School of Chemical Science, University of CAS, Beijing, China

Sen Xin received his Ph. D. degree of Physical Chemistry from Institute of Chemistry, CAS in 2013. He served as a lecturer at Hefei University of Technology (2013-2015) and then a postdoctoral researcher at University of Texas at Austin (2015-2019). After that, He returned to China and joined Institute of Chemistry, CAS as a full professor. Dr. Sen Xin has contributed 3 book chapters, and co-authored more than 110 peer-reviewed papers in *Science*, *Natl. Sci. Rev.*, *Acc. Chem. Res.*, *J. Am. Chem. Soc.*, *Angew. Chem. Int. Ed.*, *Adv. Mater.*, *Nano Lett.*, *Adv. Energy Mater.*, *ACS Energy Lett.*, etc. The papers have received a total citation of more than 14,000 times with an H-index of 58. He was selected as Highly Cited Researcher by Clarivate Analysis in the years of 2019 and 2020.

His research interests focus on preparation, storage electrochemistry and interfacial chemistry of key materials for high-energy rechargeable batteries.

Terms of Appointment

Mar 2021 - Dec 2024
